

Do you have Lynch syndrome?

Would you like to improve support for people with Lynch syndrome?

We are interested in talking to you about:

- How do you decide how to manage your risk of cancer?
- What kind of information or support would help you, or your family?

Your feedback will help create better information and support for people with Lynch syndrome.

You can join **a group discussion, or just chat to someone** from our research team.

We will take only **one hour of your time** and pay you £30 for your involvement.

You don't need any special skills, we would just really like to hear your opinion. We want to talk to **people from all backgrounds** and **especially people who have not taken part in research before.**

If you want to know more:

Please email **k.s.morton@soton.ac.uk** or get in touch on **07815 709765**.

Kate Morton is a researcher on the project. She works at the University of Southampton in Health Psychology.
